Maintain Your Park's Appearance with Ameri-Kan's Custom Painted Containers.

How do we do it? For the past **38 years**, we have been listening to our national network of consultants – you, our customers. This hands-on approach to product design has enabled us to give you more of the features and value you've asked for:

- Tapered design for clean dumping
- Wrapped corners with fully welded seams for maximum strength
- Full length caster pads, or skids for best support
- Overlapped top corners for rigidity
- Ameri-Kan gray plastic lids – long considered the best lids in our industry

- A state-of-the-art finishing system with industrial quality enamel paint "**baked on**" at 320 degrees for a great appearance that lasts
- Meets all ANSI safety and compatibility standards

Whether your needs are large or small, rear-load, front-load, or side-load containers, we're ready to help.

So if you have a question, comment or would like to talk about your special container requirements please call us at 800.759.1095.

AMERI-KAN...the container you built. Keep on telling us America – we're listening.
